Career Summary

Backend Developer with 3+ years of experience building scalable, high-performance server-side applications. Specialized in **Node.js, NestJS, Express, and TypeScript** with expertise in database design, REST/GraphQL APIs, authentication, real-time systems, and performance optimization. Skilled in creating robust backend architectures that support high-traffic SaaS, e-learning, and marketplace platforms.

Technical Skills

Backend: Node.js, NestJS, Express, TypeScript, REST/GraphQL APIs, Microservices

Databases: MongoDB, PostgreSQL, MySQL, Prisma, TypeORM

DevOps & Tools: Git, Docker, Supabase, Jest, Postman, Vercel

Realtime & Messaging: Socket.io, WebSockets, Event-driven architecture

Core Competencies

Problem Solving • Agile Development • Team Leadership • Scalable Architecture • API Design • Performance Optimization
• Technical Training

Experience

SoftyLinesDev

Sousse, Tunisia

Backend Developer

2023–Present

- Developed and maintained multiple server-side applications using **Node.js, NestJS, Express, and TypeScript**.
- Designed scalable APIs, microservices, and database schemas supporting high-traffic platforms.
- Implemented real-time features using **Socket.io** and WebSockets for dynamic dashboards and notifications.
- Integrated secure authentication, role-based access, and data validation for multiple applications.

Upwork

Remote

Freelance Backend Developer

2022–Present

- Delivered robust backend solutions for client projects with Node.js, NestJS, and Express.
- Designed and implemented REST and GraphQL APIs for web applications and dashboards.
- Optimized database queries and schema design for performance and scalability.

Key Projects

- Web School** – School management platform for 10,000+ users with LMS, scheduling, and real-time notifications (Node.js, TypeScript, MongoDB).
- Kotteb** – Backend for Quran mobile app with optimized API performance serving thousands of daily active users (Node.js, Express, MongoDB).
- SoftyNote** – Full-stack productivity platform with real-time collaboration and rich text editing (Node.js, Socket.io, PostgreSQL).
- Ixamee** – E-learning platform with adaptive learning algorithms and performance analytics (Next.js Fullstack, Prisma).
- DayTask** – Cross-platform task management app with offline sync and real-time updates (NestJS, TypeORM).
- Exclusive** – Full-featured e-commerce platform with secure transactions and role-based access (Node.js, Express, MongoDB).
- Bazaar** – Multi-vendor marketplace with advanced search algorithms and backend administration tools (Node.js, express, PostgreSQL).
- Divin Algo** – Real-time financial trading platform with backend handling PnL calculations and data streaming (Node.js, Socket.io).
- Kotteb Tab** – Chrome extension backend supporting dynamic content delivery and user personalization (Node.js, Express, MongoDB).

Education

Horizon University

BSc in Software Engineering

Sousse, Tunisia

2023–Present

ReBootKamp (RBK)

Backend Development Bootcamp

Ariana, Tunisia

2022–2023

- Focused on Node.js, NestJS, Express, databases, and scalable backend design.
- Certificate: softy.link/rbk-certif
